# viewbook.com

## Use a Fasthosts.co.uk Domain With Your Viewbook Account

**1** Log in to your Fasthosts control panel, click "Domain," and select "Manage Domains" in the drop down menu.

**2** A list of your domains will appear. Click "DNS."

**3** Click "EDIT" in the blank A record.

**4** Set the blank A record to:
- Host Name - (leave it blank)
- IP address to **174.129.219.149**.

Click "**Save**" when you are finished.

**5** Scroll to CNAME Records. Click "Add. CNAME Record."

**6** Set the new CNAME to:
- Host Name - **www**
- Points To **sites.viewbook.com**

Click "**Save**" when you are finished.

## matthewmurray.co.uk Add CNAME Record

Canonical Name (CNAME) records create alias from one domain name to another. For example, you could create an alias from 'shop.mydomain.com' to 'www.anotherdomain.com'.

**DNS CNAME Record**

| | |
|---|---|
| Host Name | www .matthewmurray.co.uk |
| Points To | sites.viewbook.com |

Cancel     Save

**7** Click "**Save Settings**."

Save Settings

Restore Default DNS Records

**8** It should look something like this when you are finished.

**9** Add the domain name in the Viewbook Dashboard. Normally, it starts working in a few hours, but it could take a day or so for the records to propagate. It if doesn't work by the next day, you probably did something incorrectly.
